

Increase Your Net Revenue: Grants & Loans for Improved Energy Efficiency

September 14, 2017 @10:30 AM

Presented by *Emily St. Clair, DNREC Division of Energy & Climate*

Would you like to decrease your operating costs to increase your bottom line? DNREC's Division of Energy and Climate offers technical assistance, as well as competitively awarded grants and loans for implementation of energy efficiency projects ranging from converting to LED bulbs to a complete mechanical retrofit. Learn about the strategic investments in capital equipment and facility upgrades that will lower your costs through reduced energy consumption and improved environmental performance resulting in an increase in your bottom line.
